Welcome

The *Operations Manual* is the most current statement of University of Iowa policy. All revisions have been made in compliance with the [Protocol for Approval of University Policies for the University of Iowa Operations Manual](#).

Introduction

The University of Iowa is governed by state and federal law, administrative regulations, and policies of the Board of Regents, State of Iowa, which provide broad direction on University affairs. This *University of Iowa Operations Manual* contains University administrative, financial, and community policies, as well as certain University-level implementing procedures. These policies and procedures have been developed to supplement and clarify Regent policy and to incorporate specific requirements of federal, state, and administrative rules and regulations.

Scope of Manual

A University policy may include governing principles, it may either mandate or constrain action, it may ensure compliance with laws, or it may mitigate the University's risk. A policy is a set of rules or guidelines that has been officially sanctioned by the President of the University and that has University-wide application. Some University policies, though carrying institutional force and effect, are not included in the *Operations Manual*. Divisional, collegiate, or departmental procedures and guidelines, although useful and important, do not meet these criteria, and therefore are not published in the *Operations Manual*. Such procedures and guidelines shall not conflict, or have the potential to conflict, with University policies. Although not University policies, some of these procedures and guidelines are referenced in related *Operations Manual* sections, as appropriate, and/or linked to this site. Noncompliance with a University policy and/or related implementing procedure, or with other divisional, collegiate, or departmental procedure, may result in discipline.

Interpretation and Application of Policies

Members of the University with questions about the interpretation and application of an *Operations Manual* policy may seek advice from their supervisor, HR Unit Representative, the Office of the Dean of Students, etc. The Offices of the Executive Vice President and Provost, the Senior Vice President for Finance and Operations, the General Counsel, and

Aerial photos of Iowa flooding

with 6 comments

Here are some [aerial photographs of flooding in Iowa from Columbus Junction, Fredonia, Lake Odessa and Muscatine](#). The images of flooding in Columbus Junction are unbelievable. My mom told me that floodwaters were as high as the pop machines at the Economart in Columbus Junction and that was after some of the flood waters had receded!
