whatthefrack.org is a program of Catskill Citizens for Safe Energy, an all-volunteer, grassroots organization that has been working to prohibit dangerous hydraulic fracturing (fracking) since 2008. Catskill Citizens provides one of the best websites in the country on fracking including an extensive反对词 and a comprehensive Learn More section. Our Action Alerts make it easy for you to contact your elected officials in just a matter of seconds. Because we have an all-volunteer staff, all the money we raise goes directly into the fight against fracking. Please donate generously.

We support the American Clean Energy Agenda. Find out how your organization can also lend its support info@whatthefrack.org.

NaturalGasNOW.org

For our nation, our economy, and our environment.

NEW YORK
Governor Andrew Cuomo has outlined a new plan to develop New York’s natural gas supplies. But this plan is not about providing energy for the average New Yorker. It’s about providing energy for the state’s economic growth and increasing profits for energy companies. This is about the growth of the energy industry that will devastate the environment and the economy of New York State.
